

# Luminaire Suspension Systems

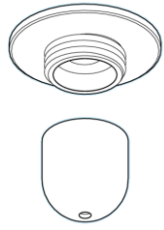

Lighting Australia supplies the latest in suspension components from Beretta, Italy, including ceiling attachments, griplocks, balancing cylinders and complete suspension systems.

Available in a wide range of combinations for many lighting applications, all Beretta products are precision engineered for safety. The components are compact and feature outstanding design with an excellent plated finish.

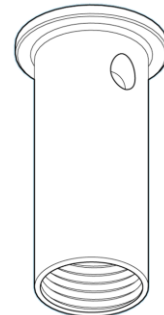

Lighting Australia supplies pre-packed component sets for easy selection and quick installation. Individual Beretta components with wire rope to order are also available on request.
